

# Accuracy checking pharmacy technician (ACPT) programme

Are you, or do you employ, a pharmacy technician who would like to broaden their skills to undertake final accuracy checks of dispensed items?

So far over 1,000 pharmacy technicians working in community, hospital and secure environment sectors have been supported by CPPE's Accuracy checking pharmacy technician (ACPT) programme.

The programme aims to support pharmacy technicians to:

- develop the skills required to be a safe competent and confident final accuracy checking pharmacy technician
- improve leadership and communication skills
- direct the dispensary team
- increase the pharmacy team's capacity to deliver patient-facing services.

The total cost for a place on the course is £330 inclusive of VAT. This payment can be self-funded or employer financed.
