

19th February 2015

Dear Pharmacist

I am writing to introduce myself as the new Head of Best 2 Know National Chlamydia Community Engagement Team. The teams aim is to increase uptake of opportunistic chlamydia screening in accordance with Public Health England recommendation of screening for all young people between the ages of 15-24.

The Best 2 Know Team have replaced the B-sure team which previously provided opportunist Chlamydia screening through your pharmacy.

I have enclosed updated window stickers, signage and poster to replace any existing b-sure publicity and advertise that your pharmacy offers free opportunistic Chlamydia screening for young people aged between 15-24 years.

If you require more postal kits please request from my colleague Janet Hindle on 01254 283871 and more postal kits will be mailed out to you.

If you require any further information about the programme, please do not hesitate to contact me on the telephone numbers above or alternatively email me.

Kindest regards

Sharon Blanche

Best 2 Know Chlamydia Screening Community Engagement Lead
