

The Primary Care Dermatology Society  
the leading dermatological Society for all primary healthcare professionals  
is pleased to launch a free webinar for Pharmacists

# A Quick Guide to the Dermatological Aspects of Pharmacy First

A 45 minute, free webinar, for pharmacists

Thursday, 2<sup>nd</sup> May 2024

7.30pm – 8.15pm

**The new Pharmacy First programme** is now rolled out across England and features 3 common dermatological conditions that can now be managed by community pharmacy – who will be able to treat shingles, impetigo and insect bites via PGD. Dr Gallard, an experienced community pharmacist and dermatology GPSI, will be providing tips on the dermatological diagnosis, effective management and common pitfalls for all 3 conditions, including some differential diagnoses and other things not to be missed, in a 30 minute presentation as follows

- Shingles 10 minute presentation
- Impetigo 10 minute presentation
- Insect Bites 10 minute presentation
- Q&A/discussion 15 minutes

**Presented by Dr Stephanie Gallard**

BSc (Hons) Pharmacy, MBCHB, Dip Prac Derm, MSc Healthcare Management

Primary Care Dermatology Society Executive Committee member

Clinical Educator for Pharmacists in Dermatology (Pharmaceutical Society/BAD)
